Subject -Science

I. Take 20-30 seeds each of boiled, roasted, and normal green gram (moong). You may also use other seeds such as chickpea (chana) and black gram (urad dal). Wash them thoroughly and place them in separate bowls lined with moist cotton cloth. Cover the seeds with the cloth. Leave the bowls undisturbed. Do not refrigerate. Make sure the cloth remains moist by sprinkling water. Observe the seeds once a day for any changes. Record your observations in a table, as shown below.

S.No.	Type of Seed	Day 1	Day 3	Day 5	Day 8	Day 10
1	Boiled seeds					
2	Roasted seeds					
3	Normal seeds					

1. What did you observe?
2. Did all the seeds sprout?
3. Which seeds did not sprout?
4. If you want to grow plants from seeds, which type of seed will you choose?
5. Will you use boiled seeds, roasted seeds, or normal seeds?

II. Project:

Ask your grandparents, older relatives, or neighbours about the traditional foods they used to eat, especially during festivals, seasons, or specific occasions.

Make a list of those dishes.

Look up the main ingredients and analyze their nutritional values—such as proteins, carbohydrates, vitamins, minerals, and health benefits.

Note:

Use A4 sheets to do this work.

Take photos related to the activity/topic.

Print/draw and stick the photos neatly on the sheet.

Make sure your work is clean, creative, and well-organized.

You may add labels or short descriptions under each photo.

Subject - Social Science

Indian History is full of the rise and fall of many kingdoms and empires. Monuments, built by the kings throw light on the past history of India. These monuments exhibit the glory of India and are part of our cultural heritage. Almost all states of India boast of some or the other important historical monuments. Thousands of tourists visit India to have a glimpse of its important historical places.

Physical Geography is the study of physical features of the earth. This includes study of landforms, drainage forms, water bodies and shorelines, minerals, soils, climate, natural vegetation and life of animals.

1. Create a model of a historical monument or a geographical feature.

Information could be written on a chart paper.

Do not use thermocol, use eco-friendly materials.

OR

2. Collect pictures of any 1 historical monuments of India or a geographical feature.

Follow the guidelines_

The project work should be done in a scrapbook .Write only on one side of the page.

Topic chosen, Name, Class, Section etc.

Introduction of the topic (a historical monument or a geographical feature.)

Brief write up about the topic chosen.

The project work should be supported with appropriate pictures.

Use pictures, diagrams, and charts to make your project more engaging and paste them in the scrap book.

Project work should be handwritten.

Have fun. Enjoy learning and exploring new topics.
